

Invision Diagnostics

COVID-19 Protective Procedures

- **Patients are screened with a COVID-19 questionnaire and temperatures must be taken before a patient enters the coach.**
- **Only one patient at a time on the coach. Patients can wait in their vehicle or in chairs outside the coach.**
- **After each patient the coach is sanitized before the next patient enters.**
(seating area, changing area, mammography room, ipads, etc)
- **All Invision Diagnostics employees wear a mask during any interaction with patients, facilities, or co-workers.**
- **Invision Diagnostics will also follow policies the physician, medical and health care practice or facility has in place regarding COVID-19.**
